

Kilo'

The tamper reinvented

INTUITIVE DISPLAY

Improve customer engagement

3 PROGRAMMABLE TAMPING PROFILES

Up to 3 levels of pressure from 3 to 30 kg for each tamping profile

EASY ADJUSTMENT

Fast and accurate stepless setting; pressure is adjustable on the fly

SOFT TAMP AND HIGH PRECISION

Constant and perfect level tamp

SUPERFAST

It takes only 0,8 sec for single tamp and 1,4 sec for three tamps

LOAD CELL WEIGHTING SYSTEM

As low as 3 kg with an accuracy of $\pm 0,5$ kg

ROTATING AND CONCAVE TAMPING DISK

It always tamps perfectly coffee level

ANTISTATIC

The tamping disk is always clean, no need to clean every time

TECHNOLOGIES

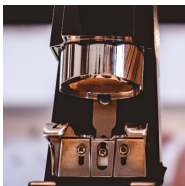

Load cell weighting

Patented system to guarantee soft tamp and high precision, as low as 3 kg with an accuracy of $\pm 0,5$ kg

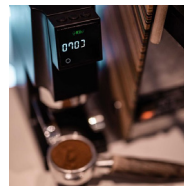

Tamping profiles

Up to 3 levels of pressure from 3 to 30 kg for each tamping profile

Rotating and concave tamping disk

Concave shape and through rotation of the disk during the pressing allow to tamps perfectly coffee level

Antistatic

Tamping disk made by stainless steel material that keeps it always clean

TECHNICAL DATA

	KILO'
Dimensions (WxHxD)	114x290x240 mm
Weight	3,5 kg
Pressure control	load cells
Tamp speed	0,8 sec for single tamp 1,4 sec for 3 tamps
Tamper diameter*	58 mm
Tamping profiles	3
Tamping range	from 3 to 30 kg
Voltage	220 - 240 V 50/60 Hz
Watts	55 W

*58,4 mm tamping disc and 54,6 mm tamping disc are available upon request as spare part
